

## Staff On The Sanctuary

When temporary staff are required, a booking needs to be made well in advance through The Sanctuary office. Confirmation must be received in order to ensure that the requisite staff member is allocated for the period required.

- Staff are allocated on a first come first served basis, subject to availability. In certain circumstances beyond our control, particularly over busy periods when demand is high, it might happen that there are no casual staff available.
- Visitors are strongly discouraged from engaging directly with casual staff for security and reliability reasons. Equally casual staff should not be arranged through the site staff. Working through The Sanctuary office will prevent problems.
- If a temporary worker's services are required overnight or for consecutive days, accommodation on site must be provided.
- Temporary workers should be employed on consecutive days to minimise logistical requirements and costs. Staff transportation to and from the site is for the owner's account (charged on basis of respective delivery fees to different development nodes).
- The cost of temporary staff is charged to the guest's account.
- Guests are welcome to tip the staff directly if desired.

## Cost

- Skipper: 920Mt excluding IVA per day
- Chef: 920Mt excluding IVA per day
- Housekeeper: 850Mt excluding IVA per day
- Security: 650Mt excluding IVA per day
