

## Water Supply To Development Nodes

### **Mazarette Zone**

Water gets pumped daily to this development zone. The tank farm is located on the side of the dune overlooking Mazarette.

### **Linene Island**

Water gets pumped three times a week, under normal circumstances, and upon request by the sites' staff during high occupancy. Communication with The Sanctuary office to arrange additional pumping is essential.

### **Worlds View**

Water gets pumped daily to World's View from the tank farm overlooking Mazarette.

### **Marape**

Water gets pumped three times a week, under normal circumstances, and upon request by the sites' staff during high occupancy. Communication with The Sanctuary office to arrange additional pumping is essential.

### **Dugong Area**

To prevent water waste, there is a dedicated pump station and water gets pumped to Dugong on request.
